

# Nile Livingston

## Senior User Interface Engineer

Atlanta, GA • (404) 277-0974 • [nilelivingston13@gmail.com](mailto:nilelivingston13@gmail.com) • [helloimnile.com](http://helloimnile.com) • [linkedin.com/in/nilelivingston13](https://linkedin.com/in/nilelivingston13)

### SUMMARY

---

- 10 years frontend engineering experience, including React, TypeScript, Next.js, jQuery, and JavaScript.
- 9 years developing and maintaining design systems
- 5 years leading frontend engineering teams, 2 years managing direct reports

### WORK EXPERIENCE

---

#### Senior UI Engineer

September 2022 – Present

Salesloft, Atlanta, GA

- Salesloft is an AI-powered revenue orchestration platform serving over 5K customers, totaling over \$200M ARR
- Served as the team lead and scrum master for the frontend platform team, responsible for around 80K lines of code across the design system, SPA development and testing infrastructure, CI/CD tooling, localization, and more
- Conducted agile ceremonies and worked alongside engineering and product managers to identify and execute priorities
- Planned and implemented platform support for theming in our design system and SPA, unlocking dark mode and colorblind-friendly themes
- Expanded end-to-end test coverage of the design system from 0% to 100%, reducing regressions of core UI components
- Architected and built a global generative AI sidebar, along with an internal API to support complex integrations
- Monitored, evaluated, and responded to incoming support requests, improving delivery team velocity and quality
- Interviewed and assessed dozens of candidates for engineering roles in the US, Mexico, and Poland
- Technologies: TypeScript, React, Styled Components, React Testing Library/Jest, Playwright, GitHub Copilot

#### Associate Director, Frontend Engineering

June 2016 – September 2022

Nebo Agency, Atlanta, GA

- Served as the frontend technical lead for numerous web development projects, including new site builds, redesigns, platform migrations, one-off marketing campaigns, and more
- Expanded Nebo's UI library from 2 to over 20 components, significantly improving engineering quality and velocity
- Architected and implemented an improved live page editor for Nebo's proprietary CMS
- Conducted dozens of meetings with existing and potential clients to assess business needs, propose projects, showcase project status, and collect feedback for iteration
- Trained, mentored, and managed 6 junior frontend engineers, conducting weekly one-on-one meetings and applying growth plans
- Interviewed and assessed dozens of frontend engineering candidates
- Collaborated with engineering leadership to define and operationalize team goals
- Designed and implemented status tracking tools and processes, improving engineering quality and velocity
- Directed Show and Tell programs at the team and organization levels, improving institutional knowledge and culture
- Technologies: Sass, jQuery, JavaScript, WordPress, Magento, PHP, Ruby on Rails, Nebo CMS (proprietary)

#### Fullstack Developer

June 2015 – June 2016

Mutualism Design, Atlanta, GA

- Collaborated with cross-functional teams and clients to deliver highly portable and functional web experiences
- Implemented a medical training and assessment platform with admin dashboard for managing users and test scores
- Published [original blog content](#) to promote company visibility and thought leadership.
- Technologies: jQuery, JavaScript, WordPress, PHP, MySQL

### EDUCATION

---

#### BA in Computer Science, Concentration in Cognitive Science

August 2011 – June 2015

Williams College
